WORK EXPERIENCE

Clariant — **Senior SAP ABAP Developer** — Navi Mumbai, India · Apr 2021 to Present

- Lead custom code work on an **S/4HANA conversion** for 11 countries, remediating **2,400** custom objects found by the ATC readiness checks before a go-live with no priority 1 defects.
- Rewrote 90 slow reports with **CDS views** and AMDP pushdown after SQL Monitor showed where the time went, cutting their average runtime by **78%**.
- Built **24 SAP Fiori elements** apps on RAP services for plant and warehouse users, replacing SAP GUI transactions on handheld scanners in 6 plants.
- Wrote the team's clean core rules with the solution architect (key-user extensions first, released APIs only) and an **ATC** check that stopped **140** transports using unreleased objects in a year.
- Review every transport from the 8-developer team before it reaches QA, cutting transports sent back from testing from 1 in 5 to **1 in 20**.

Tata Consultancy Services — **SAP ABAP Developer** — Mumbai, India · Jul 2017 to Mar 2021

- Built the **IDoc** integration between SAP ECC and 3 logistics providers for a retail client, handling about **240,000** shipment documents a month.
- Wrote BAdI and user exit enhancements in **SD** pricing and billing for **5** client SAP systems across manufacturing and retail.
- Cut an MRP support report from 50 minutes to **3** by adding a secondary index and removing nested loops.
